Ordering Instructions for Paradise Outdoor Kitchens

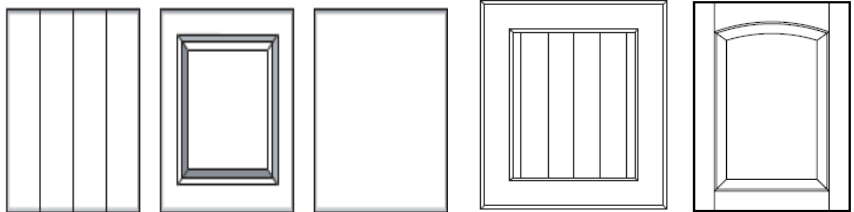

Failure to include all required information WILL delay order entry and delivery time.

1. Determine grill make, model & size. **INSULATED LINER MUST BE USED.**
2. Determine fuel source.
3. Determine Series, Door Style and Color. (Please note in the Everlast Polymer™ Series, the cabinet box and cabinet door will be the same color unless specified otherwise).
4. Use the insulated liner cut-out dimensions supplied by the appliance manufacturer to determine the size of the grill base cabinet required (see min/max dimensions of grill base cabinets).
5. List each cabinet. Mark your floor plan with item # to correspond with order form item #. Indicate quantity and hinging for each cabinet.
6. If ordering countertops, choose countertop pattern. Attach a detailed drawing of each piece of stone required with all outside dimensions, and any cut-out specifications, designate edges which need to be polished.
7. A drawing of the complete layout, including any walls or other hardscaping, is strongly recommended. Some orders may not be processed until a drawing is supplied. No order will be processed without cut-out dimensions for grill base cabinets and a listing of all appliances including make & model number.
